Fourth Update - 2012 Trip

Dear family,

After an incredible five weeks in Germany, Switzerland and England with Walli, I have returned to Ukraine for two more weeks of intensive work. During the past three days, I have spent most of the day in my room reviewing material and plans for two projects. It is time for disciplined detailed toiling.

Here are some prayer requests:

Pray for Irina Kirkosh as she finishes the final check on her editing of the textbook. We are very pleased by the work that she has already done.

Pray for Guennadi (see pictures above) as he begins the process of graphic layout of the book. During these days we will continue the search for suitable graphics and artwork. We have many sources to consider and many places to search. Does anyone have favourite sites or sources that they could share? I would greatly appreciate the help.

Pray for an efficient and effective process of layout. Pray for good networking.

One praise item. We had a good meeting with Leonid at the Christian Life Missionary Printing House in Lviv. The book will probably be printed here and we received valuable information for the most cost effective route to final printing. Some of my readers will be interested to know that this is the printing house that was started by Bill Kapitaniuk, SGA. It turns out that Guennadi, who is doing the graphic layout, knows many of the men at the printing house. This will also help the process.

Pray for Euginiy who will do the final editing of the DVD project. My seminar presentation on Psalms, Hymns and Spiritual Songs in Zaporozhye was videotaped (with translation). I have received the first edit and have finished watching more than three hours of video. Pray for wisdom, discipline and creativity as I make decisions about titles, graphics and edits as well as write study guide for leaders and notes for participants. We hope to complete a DVD with study guide so that this material can be used for personal and group study without the current limitations of my physical presence.

Every day I witness connections and details that can only be explained by prayer. On behalf of the brother and sisters here who daily express their appreciation for my ongoing ministry, thank you for your partnership.

Your servant in Ukraine,
